Sangeeta Industries WE ARE YOUR PARTNER FOR MANUFACTURING SERVICES WE ARE AN 1ATE 16949:2016 CERTIFIED ORGANIZATION

A brief about our past & present...

SANGEETA INDUSTRIES was formed on 13th February, 1989

The objective was to cater to the needs of OEM's in the engineering field by manufacturing and supplying sheet metal components.

The company is recognized as a quality conscious company striving to provide best services to its customers, and is uncompromising in terms of product quality and on-time delivery.

Total No. of machines – PP: 146, VMC -1, Wire Cut -1, Tool development machine - 16, Wire bending machine-1 narrow blanking line, pipe bending and a complete weld shop,

As the organization grows it is moving towards professionalizing itself further from a proprietorship to private limited

Dedicated team of around 190 members

It is spread over almost 2 acres

The vision and mission we adhere to...

"To enable our clients to explore new areas of opportunity and expand perspectives in providing quality products at an optimum cost"

Mission

"To be leaders in providing comprehensive customized manufacturing of sheet metal & fabricated components to clients"

On our vision road we have already developed our competency on...

Assembly - Automobile part assy, Electrical part Assy.

Surface finish - Plating, Powder coating, & Painting

Design - Auto cad, Pro~E, Catia, Solid Works

Fabrication - Spot welding, TIG welding, projection welding, mig welding, Arc welding. Upto 12 mm plate, 48 mm od tube & 30 mm bar (rod)

Tubular - (CNC Bending AND SPM bending) manufacturing upto 48 mm OD

Stamping - Extra deep drawn part mfg Thickness range 0.6 to 3.15 mm, processing of high carbon steels, spring steels and eutectic stainless steels, Aluminium

Development - Tools, Jigs, Fixtures (machine & welding), Panel Checker **Design -** Auto cad, Pro~E, Catia, Solid Works

Final

Step

This competency has been achieved on developing & strengthening of the experienced team

•Good team-mix of young enthusiasm & old experience

•Team of ~190 members with 10+ engineers having a collective experience of 100+ years

Infrastructure

- 1 unit
- Spread over 64000sqft, with an integrated facility to service our customers.Sample text
- 150+ machines,
- Modern in-house tool room, plating and powder coating plants

Systems

- IATF 16949;2016 certified organization
- Lean Trained
- Product & Process
 Control through SPC
- Defect prevention
- Reduction in variation
- Continual
 improvement

Service

- Customer
 consciousness
- Account Management concept
- Quality orientation
- Management
 focus
- Standard raw
 Material
 ON-TIME delivery

Product Mix

- Sectoral Mix
- White Goods
- Automobiles
- Material Mix
- •CR, HR, Alu, Steel,
- Tubular, varied thickness

Process Mix

- •Stamping, Tubular, Surface Treatment, Assembly
- •Large tool, Unique tooling etc.

And their continuous upgrade through training...

Manning & Training - Presently we have right mixture of workforce including skilled and semiskilled.

Development - A Design & Development Head supported by a Tool Room Head, Designers and a well manned Tool room.

Production - Production is managed by a Production head supported by a team of supervisors

Quality - A well trained & resourced Quality function with a QA, supported by a team of QC

Assembly - A separate team for assembly and wiring

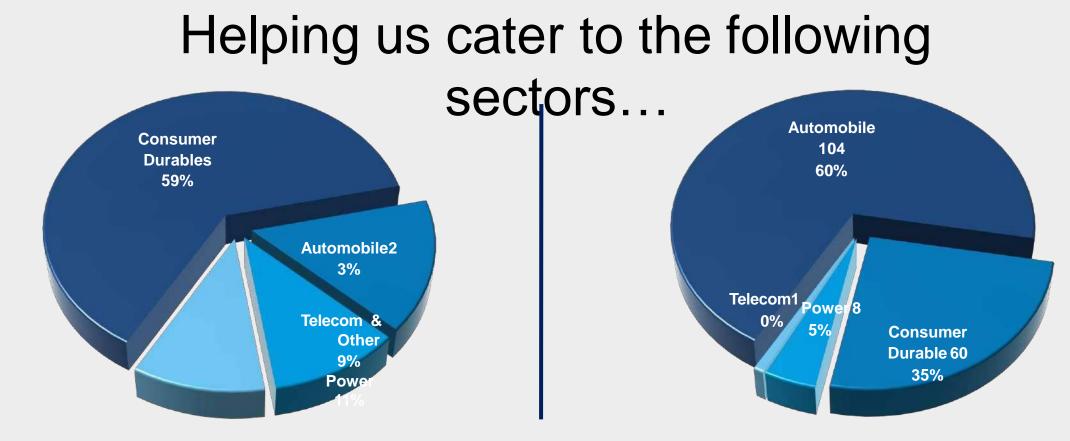

Ensuring we have a **System & IEC** that meets the latest **GLOBAL** industry standards...

Share of Business – Segment

We manufacture around 200 components for multiple clients across multiple sectors with automobile contributing

~60% of the component mix

Share of Business – Segment

However we are the supplier of choice for most of the refrigeration OEM's, thereby contributing ~55% of our SOB

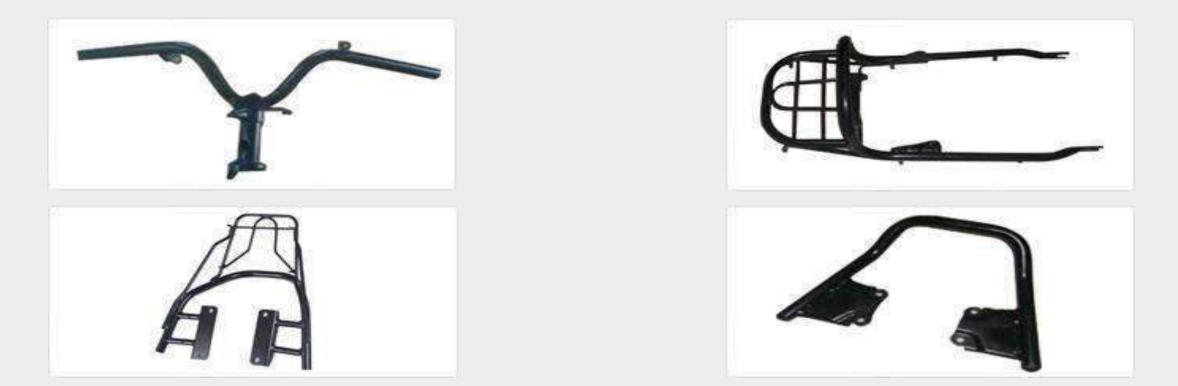

Served these reputed clients in different sectors...

We serve our clients through a wide portfolio of Products...Tubular

Part Name-Upper bkt. Customer – M2Wheeler

Part Name- Base rear Customer – M2Wheeler

We serve our clients through a wide portfolio of illustrative Products

Self / Our input designed product Moves across X & Y axis

Part Name- Mounting plate Customer -Whirlpool

Part Name- Front cross pc Customer - Whirlpool

We serve our clients through a wide portfolio of

products...illustrative samples

Part Name- Muffler Customer-CAPARO

Deep draw componentCalibrated to the size of bearing fitting

•LV switchgears

 Complete assembly involving ~ 10,000 BOP's over 200+ categories

- Mass produced
- •SPC controlled
- •Heart of the refrigerator

Part Name- Fender Side Customer-CAPARO OEM

Part Name- Clutch padel Customer-CAPARO OEM

Draw parts

Part Name- Freezer Customer - Whirlpool Part Name- Stabilizer cover Customer- C&S

Two wheeler Components

Part Name- Gusset head pipe Customer-NMPL

Mounting clamp with EPDM

Mounting clamp

Infrastructure

With over 64000 sq ft of area and 322 million strokes per shift, we have the requisite infrastructure to meet the end-to-end need of our clients

Infrastructure....continued

Press Shop	Capacity	Quantity
Power Press	400 T	1
Power Press	315 T	1
Power Press	250 T	2
Power Press	160 T	2
Power Press	150 T	4
Power Press	100 T	9
Power Press	80 T	2
Power Press	75 T	4
Power Press	63 T	3
Power Press	50 T	30
Power Press	30 T	26
Power Press	10 T	6
Break Press	250mm	1
Shearing M/C	6*250 mm	1
Drilling & Tapping M/C		3

Infrastructure....continued

3AXIS CNC PIPE BENDING

In-house Tool Development Room

In-house tool development....Continued

3 AX S TAL MAKE VMC M\C SIZE :- 2000 X 1600 X 800 1 NO.

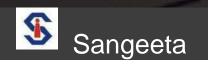

In-house tool development....Continued

WIRE CUT ALTIMAF2 SIZE - 600MMX400MM 1 NO.

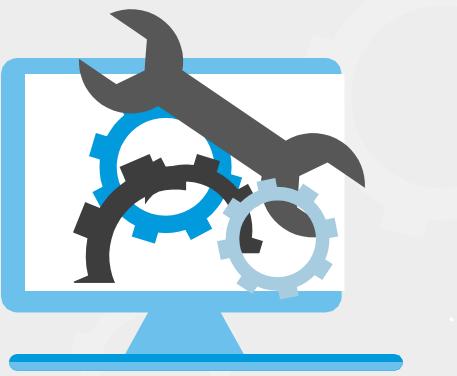

Engineering and Design

Design using AutoCAD and 3-D Modeling

A well equipped Tool Room having:

- •Development facility
- •1no. VMC 3 axis TAL make
- •1no. Wire cut Ultima
- •2nos. Lathe's 8 feet & 6 feet
- •4nos. surface grinders
- •2nos.- M1TR

Welding facilities

We have the most effective welding facilities for:

Feeder

INTRODUCION OF FEEDER WHICH HELPED US IN INCREASING THE RATE OF PRODUCTION

INTRODUCED PRESSURE FREE PACKAGING MACHINE TO AVOID ANY KIND OF HUMAN ERROR

PNEUMATIC GAUGING SYSTEM

IN HOUSE MADE GAUGING SYSTEM TO INCREASE THE SPEED WITH 100% GAUGING

We have skilled manpower with Stamping experience

We have Precise Pneumatic Machines.

We have Complete set of line for EXPANDED LINERS to Serve Filter Industries

Standards Room

Our Standards Room has complete range of Inspection instruments.

Infrastructure

We have Introduced 55 KW solar power system.

Staff Welfare

Hygiene drinking water provided to workers & Staff.

New machines added with safety features
